

## Meritor Parts

Meritor Parts - The Meritor Business is a premier international supplier built upon 100 years of custom of quality and service. Meritor focuses on integrated systems together with a range of modules and components to the original machinery manufacturers and aftermarket equipment in the industrial and transportation sectors.

Meritor values the needs of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused employees. These top-caliber workers could rapidly adapt to changing environments and freely demonstrate the level of commitment and performance needed in order to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor provides all their staff various opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 nations and in 5 different continents.

They have their supplier network which is particularly located in order to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
